### **EDUCATION**

# University of California, Davis

MS, Computer Science,

Expected Aug 2026

Davis, CA

### PROFESSIONAL EXPERIENCE

NOVARTIS Hyderabad, IN

Associate Analyst

Aug 2022 - Aug2024

- Built and maintained KPI monitoring dashboards using React.js and Java, automating workflows with machine learning models to enhance productivity.
- Improved application performance and reliability, minimizing downtime and optimizing user experience.
- Partnered with cross-functional teams to deliver data visualization solutions, accelerating decision-making processes for stakeholders.

Frameworks used: React.js, Spring Boot, TensorFlow.

Analyst Intern

Jan 2022 – Jun 2022

- Processed pharmaceutical datasets to uncover patterns influencing medicine shelf life through custom machine learning algorithms.
- Predicted degradation rates with high accuracy, enabling targeted shelf life optimizations.
  Frameworks used: Python, Pandas, TensorFlow.

# **HIGHRADIUS TECHNOLOGIES**

Hyderabad, IN

**SDE** Intern

Jun 2021 - Dec 2021

- Designed and developed React dashboards to enhance Accounts Receivable visibility, streamlining CFO decision-making.
- Optimized legacy SQL queries for Snowflake, improving performance by 30% and cutting report generation time.

Frameworks used: Java, React, Snowflake, JUnit, JMeter

# **TECHNICAL SKILLS**

- **Programming Languages:** Java, Python, JavaScript, C++, C
- Frameworks: React, Spring Boot, Struts
- **Database:** MySQL, Snowflake
- Version Control: Git

## **PROJECTS**

# Web Scraper for Trending Tech Stacks

Built a website to analyze and summarize trending technologies, using Python for data scraping, Spring Boot for backend services, and React for the frontend.

Technical Frameworks: Python, Spring Boot, React, SQL, Java.

#### **Portfolio**

Developed a personal portfolio website to showcase projects and skills, implementing responsive design and seamless navigation using React.js.

Technical Frameworks: JavaScript, React
